Re: Final Source Control Decision
Schnitzer Investment Corp. Doane Lake Property, Portland, Oregon
ECSI #395
June 20, 2016

Dear Mr. McClincy:

The United States Environmental Protection Agency (EPA) has completed its review of the Final Source Control Decision for Schnitzer Investment Corp. Doane Lake Property.

Based on the information provided, EPA agrees that Source Control Measures at this upland site are reducing the potential for recontamination of the Willamette River within the Portland Harbor Superfund Site (PHSS).

If DEQ goes forward with providing Schnitzer Investment Corp. Doane Lake Property with a "no further action" letter, EPA may still require further source control actions under its CERCLA authorities.

Please contact me at (206) 553-1970 or demaria.eva@epa.gov if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Eva DeMaria", is positioned above the printed name.

Eva DeMaria
Remedial Project Manager
